Payments to
Teachers

Payments to
University
Staff

Certificate
Payments

And many
more ..

EduCoin

Revolutionizing In-Campus Payments

Cash is **Old, Slow, Dirty** and **In-efficient**.

It also is much more open to **fraud** and **human error**.

A **single cash transaction** requires getting the money out of a wallet/pocket, counting it, handing it over, **waiting while the sum offered is checked**, receiving any change, checking the change, and putting it away. A **Slow** and **Old** process

EduCoin

Revolutionizing In-Campus Payments

No progress what so ever **Cash used for all use cases of Payments**

When will this change will happen in In-campus Payments
